

# Missed Call Automation System

FlowCtrl | Always On

*FlowCtrl delivers fully managed, end-to-end automation solutions designed to streamline business operations—from lead capture to centralized data management, seamless drive syncing, automated SMS/email reminders, and more. Everything is handled entirely by FlowCtrl, so there's no need to learn, setup, or manage any part of the process. The focus remains on growing the business while results are delivered effortlessly.*

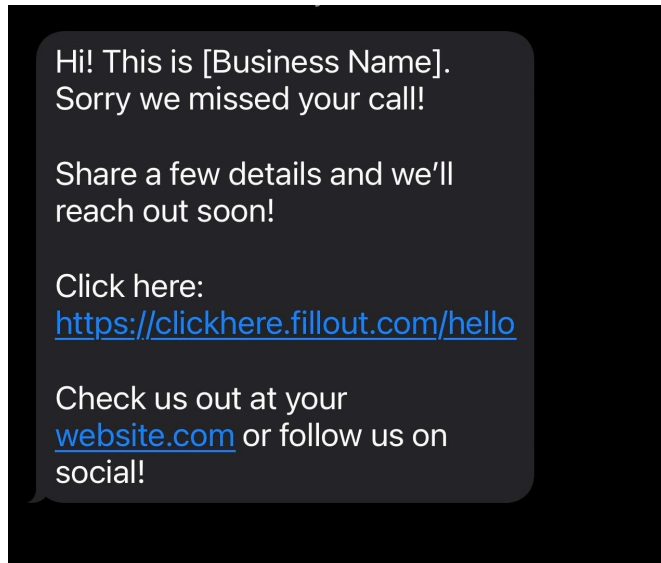

This automation turns missed calls into new leads by texting a quick form and alerting you instantly.

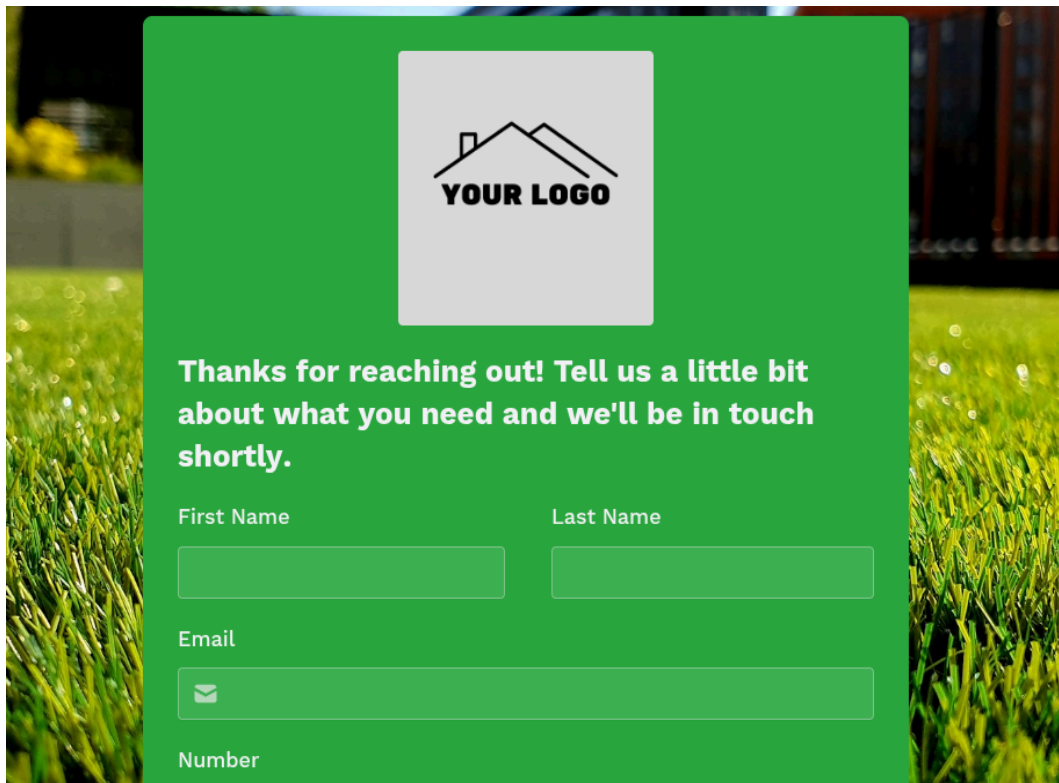

## Key Benefits:

- ✓ Missed call triggers automation
- ✓ A quick text is sent to the missed caller, thanking them, and getting their details
- ✓ Text includes link to a short form (name, service needed, urgency, notes)
- ✓ Info is sent to:
  - Google Sheet (organized tracking)
  - Business owner's email
  - Business owner's phone
- ✓ Customer receives confirmation email.

 Custom text. Include your website or social media.

 Simple form. Text to Form example: [click here](#)

A green rectangular form overlay on a background of green grass. At the top center is a grey square placeholder for a logo, containing a simple line drawing of a house and the text "YOUR LOGO". Below the logo, the text "Thanks for reaching out! Tell us a little bit about what you need and we'll be in touch shortly." is displayed in white. Underneath this text are four input fields: "First Name" and "Last Name" are side-by-side, followed by "Email" and "Number" below them. The "Email" field has a small envelope icon on the left. All input fields are white with green borders.

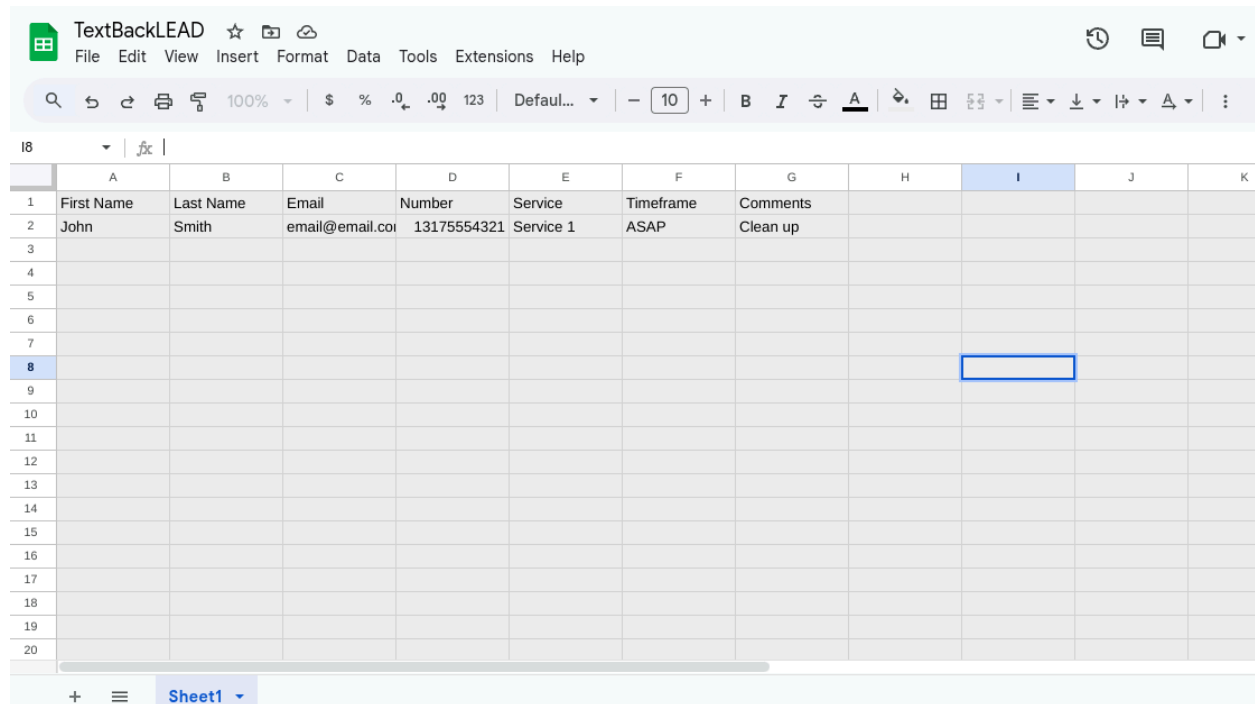

## Auto-Email confirming their request

Email and text with details sent to you.

Everything is organized in your drive automatically.

The screenshot shows the TextBackLEAD application interface. At the top is a menu bar with options: File, Edit, View, Insert, Format, Data, Tools, Extensions, and Help. Below the menu is a toolbar with various icons for search, undo, redo, print, and formatting. The main area is a spreadsheet with columns labeled A through K. The first row (row 1) contains headers: First Name, Last Name, Email, Number, Service, Timeframe, and Comments. The second row (row 2) contains data: John, Smith, email@email.co, 13175554321, Service 1, ASAP, and Clean up. The spreadsheet is currently displaying row 8, which is empty. A blue box highlights the cell in row 8, column I. The bottom of the interface shows a tab labeled 'Sheet1'.

	A	B	C	D	E	F	G	H	I	J	K
1	First Name	Last Name	Email	Number	Service	Timeframe	Comments				
2	John	Smith	email@email.co	13175554321	Service 1	ASAP	Clean up

## The Results:

- ✓ You never miss a lead to a missed call again
- ✓ Customers feel acknowledged and taken care of right away
- ✓ You save time, stay organized, and follow up on your terms
- ✓ It works 24/7 in the background so you can focus on the work, not the admin
- ✓ You get a clear overview of every inquiry, without getting buried in the day-to-day
- ✓ Turn missed calls into booked jobs

## Pricing:

### **Base Package: \$300/month**

Includes full automation system for missed calls, instant text-back, lead capture form, Google Sheet tracking, business owner notifications (text/email), and customer confirmation email.

### **One-Time Setup: \$150**

Covers complete system build, customization, testing, and delivery.

### **Optional Add-ons (as needed)**

Additional features or integrations (like CRM, scheduling tools, or email marketing platforms) can be added based on your needs, with setup ranging from \$100-200, and support starting at \$100-\$300/month per integration, depending on the scope.

Secure payments via:
